June 30, 1914, as compared with the previous fiscal year there were 102 fewer persons killed and 1068 fewer persons injured as a results of the Safety work on the road. It is reported that the road's record for the year ending December 31st, is even better than the record for the fiscal year, the decrease in death cases being 32 per cent and injury cases 33 per cent. over the previous calendar year. One of the interesting features of the road's record is in the efficiency of its employees as indicated by surprise tests

record is in the efficiency of its employees as indicated by surprise tests wherein the employees without previous warning were tested as to their observance of signals set against them, as to flagging, blowing whistles at grade crossings, speed restrictions etc. Out of 323.692 such tests made in the year in only 309 cases were the employees deficient, the percentage of efficiency being 99.88 percentum.
